AROMA® Quick Start Guide

1. Add Rice
   Using the included measuring cup, add 2 to 10 cups of rice to the inner cooking pot. Rice will roughly double in amount once cooked.

2. Add Water
   Fill the inner cooking pot with water until reaching the line that corresponds to the amount of uncooked rice added.

3. Press a Button
   Press the Power/Keep-Warm button to turn the rice cooker on. Press the White Rice or Brown Rice button to begin cooking. Once the rice is ready, the rice cooker will beep and automatically switch to Keep-Warm.

Questions or concerns about your rice cooker?

Quick Tips

- Short on time? The Quick Rice function can reduce cooking time by up to 50%. See page 9 of the included instruction manual for details.
- Misplaced your measuring cup? A ¼ standard US cup is an exact replacement.
- Want perfect brown rice without the wait? Use the Delay Timer in the morning to have rice ready when it’s needed at night. See page 10 of the instruction manual for details.
- Rice too dry? Add a cup of water and press Quick Rice. Rice is ready when it switches to Keep-Warm.
- Rice too moist? Use the serving spatula to stir the rice and leave on Keep-Warm for 30 minutes.
- Rice too crispy? Rinsing rice before cooking will help to reduce starchy buildups and produce fluffier results.

For complete instructions on your rice cooker and its many features, refer to the included instruction manual.
