HOW TO USE

1. Before first use, make sure the kettle, power base and power cord are in good condition and are completely dry.

2. Remove the kettle from the power base, open the lid and fill the kettle with the desired amount of water. Do not fill passed the MAX mark.

3. Close the lid, making sure it locks closed.

4. Once again, make sure the kettle and power base are completely dry.

5. Place the kettle onto the power base and plug in the unit. Press the power lever located on the base of the handle to the down position, turning on the unit. The indicator light will illuminate.

6. Press the power lever located on the base of the handle to the down position, turning on the unit.

7. Do not open lid while water is boiling.

8. When the water has boiled, the kettle will release the power lever back to the up position. The unit will turn off and the indicator light will blink.

9. If no further heating is required, unplug unit for additional safety.

10. Lift the kettle hard from the power base before pouring.

11. Do not pour the kettle as boiling.

12. When the water has boiled, do not use the kettle for additional safety.

13. Before first use, make sure the kettle, power base and power cord are in good condition and are completely dry.

14. To remove filter:

- Place the Kettle back on the power base.

15. To insert filter:

- Place the Kettle back on the power base.

16. Place the Kettle back on the power base.
1. Always unplug unit and allow to cool before cleaning.
2. Do not use abrasive cleansers. Simply wipe the exterior with a clean damp cloth and dry thoroughly. If a cleaning solution is used, apply to a clean cloth and not directly onto the kettle.
3. Never immerse the kettle, cord, plug or power base in water.
4. Ensure that the kettle is properly plugged into the outlet. Never try to remove the filter when the kettle is hot or contains hot water. See page 4 for removal instructions.
5. During cleaning, make sure any electrical connections remain completely dry.
6. The filter can be removed for cleaning. Clean the mesh of the filter regularly by running it under the tap.
