When using electrical appliances basic safety precautions should always be followed, including the following:

1. **Important: Read all instructions carefully before first use.**

2. Do not touch hot surfaces. Use handles or knobs. Metal surfaces become extremely hot.

3. To protect against fire, electric shock and injury to persons, do not immerse cord, plug or kettle in water or any other liquid. See instructions for cleaning.

4. Close supervision is necessary when the appliance is used by or near children.

5. Always unplug the appliance from the outlet when not in use and before cleaning. Allow the kettle to cool completely before putting on or taking off parts, and before cleaning the appliance.

6. Do not operate appliance with a damaged cord or plug, or after appliance malfunctions or has been damaged in any manner. Contact Aroma® customer service for examination, repair or electrical/mechanical adjustment.

7. The use of accessory attachments not recommended by Aroma® Housewares may result in fire, electrical shock or injury.

8. Do not use outdoors.

9. Do not let cord hang over the edge of a table or counter or to touch hot surfaces.

10. Do not place kettle on or near a hot gas or electric burner or in a heated oven.

11. To disconnect, turn any control to the “OFF” position, then remove the plug from the wall outlet.

13. Only use the kettle to heat water. No other liquids should be placed inside the kettle.

14. Do not use kettle for other than its intended use.

15. The power base must only be used with the provided kettle.

16. Do not unscrew any screws on the kettle or power base or attempt to disassemble them in any way.

17. Do not move kettle during the heating process.

18. This appliance is for household use only.

19. Do not immerse this appliance or any of its parts in water.

20. Scalding may occur if the lid is removed during the boiling cycle.

21. **CAUTION:** If water exceeds the MAX line, the boiled water may spill out.

22. Use only on a level, dry and heat-resistant surface.

23. The electric kettle should be operated on a separate electrical circuit from other operating appliances. If the electrical circuit is overloaded with other appliances the electric kettle may not operate properly.

24. Do not open the kettle lid when in operation.

**SAVE THESE INSTRUCTIONS**
IMPORTANT SAFEGUARDS

Short Cord Instructions

1. A short power-supply cord is provided to reduce the risks resulting from becoming entangled in or tripping over a longer cord.
2. Longer extension cords are available and may be used if care is exercised in their use.
3. If a longer extension cord is used:
   a.) The marked electrical rating of the extension cord should be at least as great as the electrical rating of the appliance.
   b.) The longer cord should be arranged so that it will not drape over the counter top or tabletop where it can be pulled by children or tripped over unintentionally.

DO NOT DRAPE CORD!
KEEP AWAY FROM CHILDREN!

Polarized Plug

This appliance has a polarized plug (one blade is wider than the other); follow the instructions below:

To reduce the risk of electric shock, this plug is intended to fit into a polarized outlet only one way. If the plug does not fit fully into the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to modify the plug in any way.

If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or a similarly qualified person in order to avoid a hazard.
**Parts Identification**

**Digital Control Panel**

- **Lid Lever**
- **Easy-Grip Handle**
- **Water Level Indicator**
- **Stainless Steel Kettle Body**
- **Power Base**
- **Power Cord**
- **Removable Filter**
- **Drip-Free Spout**
- **Lid**

**Controls/Functions**

**Power On (⊕)**

When switch is pressed, turns on heating, *Keep Warm*, or set to standby mode.

**Digital Display**

Indicates the temperature of the kettle.

**(-) and (+)**

Allows you to set the desired temperature for heating 120°F – 212°F or *Keep Warm*.

**Keep Warm Indicator**

Turns on when *Keep Warm* mode is activated. To disable *Keep Warm*, press (⊕) again.

**Heating Indicator**

Turns on when Kettle is heating up. Turns off when desired temperature is reached.
Before First Use

1. Read all instructions and important safeguards.
2. Remove all packing materials and make sure that the product has been received in good condition.
3. Take care to keep the electrical components on the exterior of the kettle dry, wipe out the interior of the kettle with a damp cloth. If your hand will not fit inside the kettle, swish warm, soapy water around in the interior of the kettle with the lid closed.
4. Rinse out the inside of the kettle thoroughly with water.
5. With a damp cloth, gently wipe off the exterior of the kettle. Do not wipe off electrical components as this may cause damage to the unit.
6. Dry all parts completely.
7. It is recommended to run your kettle through one boiling cycle before using it for consumption. Following the instructions in Heating Water on page 7, boil one kettle of water. When water has boiled, pour it out and rinse the inside of the kettle once more. The kettle is now ready for use.

Caution:
Always unplug the kettle and allow it to cool completely before cleaning. Never immerse the kettle, power cord, plug or power base in water.

Note:
- Never attempt to disassemble the kettle or the power base.
- Always take care not to allow electrical components to come into contact with water.
- Do not use abrasive cleaners or scouring pads of any kind on the kettle or power base. This will cause damage to the finish and may create a risk of electrical shock.
- Any other servicing should be performed by Aroma® Housewares.

To Clean

Always unplug the kettle and allow it to cool completely before cleaning.

1. Wipe the exterior of the kettle with a damp cloth, taking care to avoid the electrical components.
2. Clean the interior of the kettle with a soft sponge and warm, soapy water. If your hand does not fit in the lid opening, swish warm, soapy water around inside of the kettle with the lid closed.
3. Rinse any remaining soapy water from the kettle.
4. Drain.
**HEATING WATER**

1. Place power base on a sturdy, level, and dry surface.
2. Make sure that the removable filter is properly inserted. See **Removing/Inserting the Filter** on page 9 for instructions on inserting the filter.
3. Open the lid and fill with water. Water must be filled between the Min and Max levels inside the kettle.
4. Close the lid, ensuring it locks into place.
5. Plug the power cord into a wall outlet and place the kettle onto the power base. The kettle will beep once to indicate it is in standby mode.
6. Press \( \) to begin heating. The heating indicator will illuminate, the digital display will display 212°. As the water begins to heat, the digital display will show the temperature in real time.
7. Once the water reaches a boil, the kettle will beep three times and automatically stop heating.
8. Using the easy-grip handle, lift the kettle off the power base to serve. Do not touch the stainless steel body, as it will be hot.
9. When finished serving, pour out any remaining water and unplug the power cord.

**USING KEEP WARM TEMPERATURES**

1. Place power base on a sturdy, level and dry surface.
2. Make sure that the removable filter is properly inserted. See **Removing/Inserting the Filter** on page 9 for instructions on inserting the filter.
3. Open the lid and fill with water. Water must be filled between the Min and Max levels inside the kettle.
4. Close the lid, ensuring it locks into place.
5. Plug the power cord into a wall outlet and place the kettle onto the Power base. The kettle will beep once to indicate it is in standby mode.

(continued on next page)
6. Press (ᵢ) twice. The Keep Warm will illuminate, the digital display will display 160° and the kettle will begin heating the water. As the water begins to heat, the digital display will show the temperature in real time.

7. Pressing the (-) or (+) buttons will increase or decrease the temperature in 10 degree increments between 120°F and 200°F.

8. Once the desired temperature setting is reached, the kettle will beep 3 times and stop heating. The kettle will heat occasionally in order to maintain the selected temperature.

9. Using the easy-grip handle, lift the kettle off the power base to serve. Do not touch the stainless steel body, as it will be hot. Lifting the kettle off the power base will turn it off.

10. After pouring, make sure the bottom of the kettle and the power base are dry before placing kettle back on the power base.

11. To continue using the Keep Warm setting, press (ᵢ) twice to activate Keep Warm and select the desired temperature by pressing the (-) or (+) buttons.

12. When finished serving, pour out any remaining water and unplug the power cord.

---

**Suggested Uses for Keep Warm**

**Removing/Inserting the Filter**

TO REMOVE THE FILTER:
1. Do not attempt to remove filter until the unit has cooled completely. Open the lid and press in each of the two tabs on the front of the spout to release the filter. From inside the kettle grasp the angled tab on the filter and pull upward. The filter should slide out easily.
2. Wash and rinse the filter, then replace.

TO INSERT THE FILTER:
1. Open the lid.
2. Grasping the filter at the angled tab, insert the bottom tab first followed by the top two tabs on the filter. Slide the filter into the slots on the inside of the spout until the filter sits securely into place.
3. Once the filter is securely in place, the kettle will be ready for use.

---

**Caution:**
Never fill kettle with any liquid other than water.
Never open the lid while water is boiling.
If the lid is not completely closed and filter is not in place the kettle will not automatically turn off.

**Note:**
- It is necessary for the filter to be properly in place for the kettle to shut off automatically.
- Use distilled water when possible for best taste and to minimize mineral build-up in the kettle.

**Helpful Hints:**
Misplace your filter? Replacement parts are available online at www.AromaCo.com or contact Aroma® Customer Service toll-free at 1-800-276-6286.
Troubleshooting

There are mineral deposits on the interior of the kettle. If mineral deposits occur, follow these steps:

1. Fill the kettle halfway with water.
2. Following instructions in Heating Water on page 7, bring the water to a boil.
3. Add one cup of white vinegar to the water in the kettle.
4. Allow the mixture to soak overnight.
5. Empty the mixture and rinse out the kettle.
6. Refill the kettle with water only. Bring it to a boil and empty again. Repeat as needed.

Note:
· If the problem persists, please contact our customer service department toll-free at (800) 276-6286 or through email at CustomerService@AromaCo.com.

Mineral Deposits

Hard water can leave mineral deposits that create scale build-up on the interior of the kettle. If mineral deposits occur, follow these steps:

1. Fill the kettle halfway with water.
2. Following instructions in Heating Water on page 7, bring the water to a boil.
3. Add one cup of white vinegar to the water in the kettle.
4. Allow the mixture to soak overnight.
5. Empty the mixture and rinse out the kettle.
6. Refill the kettle with water only. Bring it to a boil and empty again. Repeat as needed.

The kettle function does not work after setting the temperature.
· Make sure the kettle is seated properly on the power base and that the base is connected to a functioning electrical outlet.
· If the kettle is heated with no water, the internal safety mechanism will automatically turn the kettle off. The kettle will begin working again when water is added.
· If the set temperature is lower than the actual temperature in the kettle, kettle will naturally cool down to the set temperature then beep 3 times and turn off.
**Honey Mint Tea**

4 tbsp honey
1-2 fresh mint leaves
1 lemon wedge (about ¼ a lemon)
4 cups hot water

Boil 4 cups of water with your electric water kettle. Add 1 tablespoon of honey to 4 heat-safe mugs. In a separate bowl or cup, muddle together mint and lemon juice and evenly distribute between the mugs. Pour hot water over ingredient mix.

*SERVES 4.*

**Hot Peanut Butter Cup**

4 packets* hot cocoa mix
8 tsp peanut butter
3 cups hot water

* 1 cocoa mix packet is approximately 1.5 tablespoons.

Boil 3 cups of water with your electric water kettle. Allow to cool slightly. Add cocoa mix packet* of your choice and ⅔ cup of hot water to 4 heat-safe mugs. Mix in 2 teaspoons of peanut butter to each mug. Allow to cool and enjoy!

*SERVES 4.*
### Chai Tea Latte

- 8 bags chai spice black tea
- 1 cup hot water
- 2 cups whole milk
- 1 tsp cinnamon
- 1 tsp nutmeg

Boil at least 1 cup of water with your electric water kettle; boil more water if you like it more diluted. Place 2 tea bags each in 4 heat-safe mugs. Steep with ¼ cup of water in each mug for 3-5 minutes. Remove tea bags and discard. Pour the milk into a separate bowl and whisk until frothy. Pour over each mug of tea; top with a sprinkle of cinnamon and nutmeg.

**SERVES 4.**

---

### Spiced Cider Tea

- 2 tbsp cinnamon
- 4 whole cloves
- 4 bags black tea
- 4 cups apple cider
- 4 tsp sugar
- 4 cups hot water

Pour 1 cup apple cider into each of 4 heat-safe mugs. To each mug, add ½ tbsp cinnamon, 1 clove, 1 tea bag, and 1 tsp sugar. Boil the water in the kettle. Pour over the mixture in the mugs, about 1 cup per each mug. Let steep for 5 minutes, then remove tea bags and cloves. Stir to combine and enjoy!

**SERVES 4.**

**Mocha Coffee**

4 packets* | hot cocoa mix
---|---
8 tsp | instant coffee
4 cups | hot water
4 tsp | sugar
4 tbsp | milk

* 1 cocoa mix packet is approximately 1.5 tablespoons.

Boil 4 cups of water with your electric water kettle. Allow to cool slightly. In 4 heat-safe mugs, add the packets* of cocoa mix, 2 tsp coffee, 1 tsp sugar and 1 tsp milk. Add 1 cup hot water to each mug. Stir to combine and enjoy!

**SERVES 4.**

**Egg Drop Ramen**

2 packs | instant ramen noodles
---|---
6 cups | hot water
2 | eggs
2 tsp | chopped scallions
1 tsp | sesame oil
1 tbsp | soy sauce

Boil the water in your electric kettle. Place the dried noodles in 2 heat-safe bowls. If desired, pour the flavor packets over the noodles. Carefully pour 2 cups of hot water over each of the bowls of noodles. Let sit for about 3 minutes then stir.

Re-boil the remaining 2 cups of water. Pour over the noodles and add an egg to each. Stir thoroughly until the egg is distributed. Add in the sesame oil, soy sauce, and scallions.

**LIMITED WARRANTY**

Aroma Housewares Company warrants its products against defects in material and workmanship for 2 years from provable date of purchase in the United States.

Within this warranty period, Aroma Housewares Company will repair or replace, at its discretion, defective parts at no charge, provided the product is returned, freight prepaid with proof of purchase and U.S. $20.00 for shipping and handling charges payable to Aroma Housewares Company. Before returning an item, please call the toll free number below for a return authorization number. Allow 2-4 weeks for return shipping.

This warranty does not apply if the warranty period expired; the product has been modified by any unauthorized service center or personnel; the defect was subject to abuse, improper use not conforming to product manual instructions, or environment conditions more severe than those specified in the manual and specification, neglect of the owner or improper installation; the defect was subject to Force Majeure such as flood, lightning, earthquake, other natural calamities, war, vandalism, theft, brownouts or sags (damage due to low voltage disturbances).

This warranty gives you specific legal rights, which may vary from state to state, and does not cover areas outside the United States.
