Para electrica de 7 tazas
Manual de instrucciones

www.AromaCo.com/Support
Congratulations on your purchase of the Aroma® Simply Stainless™ 7-Cup Electric Kettle— the best way to boil! This electric kettle is the ideal solution for any need in the kitchen that calls for boiling water in a hurry. It’s perfect for a soothing cup of hot tea, an easy bowl of noodles, an invigorating cup of instant coffee, a hearty helping of oatmeal, delicious hot chocolate and much more!

Faster than the stovetop, your new kettle will boil water at a blazing cup-a-minute speed. And there’s no need to worry about a forgotten kettle, as the electric kettle shuts off automatically once water has boiled. Its 100% stainless steel interior ensures the best brewed flavor for your favorite hot drinks and meals. And saving friends and family has never been easier. The kettle has a cool-touch plastic exterior and lifts off its power base for easy and safe cordless pouring.

For more information on your Aroma® Simply Stainless™ 7-Cup Electric Kettle, or for product service, replacement parts and other home appliance solutions, please visit us online at www.AromaCo.com.

**IMPORTANT SAFEGUARDS**

**Short Cord Instructions**

1. A short power-supply cord is provided to reduce the risks resulting from becoming entangled in or tripping over a longer cord. If an extension cord is absolutely necessary, use the utmost care in selecting and using an extension cord that is properly installed and rated for the appliance.

2. Longer extension cords are available and may be used if care is exercised in their use.

3. If a longer extension cord is used:
   a. The marked electrical rating of the extension cord should be at least as great as the electrical rating of the appliance.
   b. The longer cord should be arranged so that it will not drape over the countertop or tabletop where it can be pulled by children or tripped over unintentionally.
   c. The extension cord should be a grounding-type 3-wire cord.

**Grounding Instructions**

- **Grounding Means Aground**

A short power-supply cord is provided to reduce the risks resulting from becoming entangled in or tripping over a longer cord. If an extension cord is absolutely necessary, use the utmost care in selecting and using an extension cord that is properly installed and rated for the appliance.

- **Grounding Instructions**

This appliance must be grounded while in use to protect the operator from electrical shock. The appliance is equipped with a 3-conductor cord and a 3-prong grounding-type plug to fit the proper grounding-type receptacle. The appliance has a plug that looks like sketch A. An adapter sketch B, should be used for connecting sketch A plugs to two-prong receptacles. The grounding tab, which extends from the adapter, must be connected to a permanent ground such as a properly grounded outlet box as shown in sketch C using a metal screw.

**Síntomas de advertencia**

- **En caso de emergencia**

Si el aparato se inactiva, se debe dejar que se enfrié antes de usar la unidad. En caso de emergencia, apague el aparato antes de intentar repararlo. No intente repararlo usted mismo, ya que puede ser peligroso.

- **¡PRECAUCIÓN!**

Antes de intentar reparar el aparato, asegúrese de que esté en buen estado y que no esté dañado. Si el aparato no funciona correctamente, llame a un técnico calificado para que lo repare.

**NOTAS**

- **Advertencia**

No use el aparato si está dañado. Antes de usar el aparato, asegúrese de que esté en buen estado y que no esté dañado. Si el aparato no funciona correctamente, llame a un técnico calificado para que lo repare.

- **Instrucciones para el usuario**

- **¡ADVERTENCIA!**

- **Precaución**

- **Cuidado**

- **Conserve estas instrucciones.**
BEFORE FIRST USE

Before using for the first time, it is recommended to clean the interior of the kettle thoroughly. Please follow the procedures below before using the kettle:

1. Remove all packing materials and make sure that the product has been received in good condition.
2. Taking care to keep the electrical components on the exterior of the kettle dry, wipe out the interior of the kettle with a damp cloth. If your hand will not fit inside the kettle, switch warm, soapy water around in the interior of the kettle with the lid closed.
3. Rinse the inside of the kettle thoroughly with water.
4. With a damp cloth, gently wipe off the exterior of the kettle. Do not wipe off electrical components as this may cause damage to the unit.
5. Dry all parts completely.
6. It is recommended to run your kettle through one boiling cycle before using it to consume beverages. Following the instructions in “To Boil Water” on page 5, boil one kettle of water. When water has boiled, pour it out and rinse the inside of the kettle once more. The kettle is now ready for use.

Antes de usar por primera vez, se recomienda limpiar el interior de la olla cuidadosamente. Siga los procedimientos a continuación antes de usar el vaso:

1. Quite todo tipo de material de empaque y asegúrese de que el producto ha sido recibido en buenas condiciones.
2. Tome cuidado de mantener los componentes electrónicos en el exterior de la olla en seco, limpie el interior de la olla con un paño húmedo. Si no puede alcanzar el interior de la olla, remueva agua tibia con jabón con cuidado y luego enjuague.
3. Enjuague el interior de la olla completamente con agua.
4. Con un paño húmedo, limpie suavemente el exterior de la olla. No limpie los componentes electrónicos ya que esto puede dañarlos.
5. Secar completamente todos los componentes.
6. Se recomienda encender la olla durante una vez sin llenarla antes de usarla para consumir bebidas. Siga las instrucciones en “Cocinar Agua” en la página 5, cocine una olla de agua. Una vez que el agua hierva, vacíela y enjuague el interior de la olla una vez más. La olla ya está lista para usar.

Avisos de uso: El vaso cocina por primera vez se recomienda usarlo para beber agua.

Antes de usar para beber agua en primer lugar, se recomienda que el interior de la olla se enjuague y se seque completamente.

Aviso de seguridad: Los componentes electrónicos no deben ser limpiados con agua tibia a alta temperatura ya que esto puede dañarlos.

Avisos de uso: El vaso cocina por primera vez se recomienda usarlo para beber agua.

Avant la première utilisation, il est recommandé de nettoyer l'intérieur de la cafetièr e. Veuillez suivre les procédures ci-dessous avant d'utiliser la cafetièr e :
TO BOIL WATER

1. Place power base on a sturdy, level and dry surface.

2. Press the LID RELEASE TRIGGER to open the kettle lid and fill with water through the lid opening. Water must be filled between the “Min” and “Max” levels marked inside the kettle.

3. Close the lid, ensuring it locks into place. The lid should click signifying it has been closed securely.

4. Place the kettle onto the power base.

**CAUTION**
- The stainless steel portion of the kettle will become extremely hot during use and remain hot for sometime after. Do not touch the stainless steel portion of the kettle until the kettle has cooled completely.

**Como Hervir Agua**
TO BOIL WATER (CONT.)

Plug the power cord into an available outlet.

Press down on the POWER SWITCH. The indicator light will illuminate and the kettle will begin heating the water.

Once the water reaches a boil, the POWER SWITCH will automatically turn to the "OFF" (0") position and the kettle will shut off.

Using the easy-grip handle, lift the kettle off the power base to serve. Do not touch the stainless steel portion of the body, as it will be hot.

Never fill kettle with any liquid other than water. Never open the lid while water is boiling.

If the kettle is heated with no water, the internal safety mechanism will automatically turn the kettle off. The POWER SWITCH will not automatically return to the "ON" (1") position. The kettle will begin working again after the kettle is removed from and returned to the base and the internal temperature drops to a safe level. The kettle should function properly when water is added.

When finished serving, pour out any remaining water and unplug the power cord.
REMOVING MINERAL DEPOSITS

Hard water can leave mineral deposits that create scale build-up on the interior of the kettle. If mineral deposits occur, follow these steps:

1. Fill the kettle halfway with water.
2. Following the instructions in “To Boil Water” on page 5, bring the water to a boil.
3. Add one cup of white vinegar to the water in the kettle.
4. Allow the mixture to soak overnight.
5. Empty the mixture and rinse out the kettle.
6. Refill the kettle with water only. Bring it to a boil and empty again. Repeat as needed.

• Using distilled water will help to prevent the buildup of mineral deposits.
WARRANTY

LIMITED WARRANTY

Aroma Housewares Company warrants this product free from defects in material and workmanship for one year from provable date of purchase in the United States.

Within this warranty period, Aroma Housewares Company will repair or replace, at its option, defective parts at no charge, provided the product is returned, freight prepaid with proof of purchase and U.S. $15.00 for shipping and handling charges payable to Aroma Housewares Company. Before returning it, please call the toll free number below for a return authorization number. Allow 2-4 weeks for return shipping.

This warranty does not cover improper installation, misuse, abuse or neglect on the part of the owner. Warranty is also invalid in any case that the product is taken apart or serviced by an unauthorized service station.

This warranty gives you specific legal rights, which may vary from state to state, and does not cover areas outside the United States.
